Certain matters discussed within this Supplemental Information may be deemed to be forward-looking statements within the meaning of the federal securities laws. Although Federal Realty believes the expectations reflected in the forward-looking statements are based on reasonable assumptions, it can give no assurance that its expectations will be attained. These factors include, but are not limited to, the risk factors described in our Annual Report on Form 10-K filed on February 13, 2017, and include the following:

- *risks that our tenants will not pay rent, may vacate early or may file for bankruptcy or that we may be unable to renew leases or re-let space at favorable rents as leases expire;*
- *risks that we may not be able to proceed with or obtain necessary approvals for any redevelopment or renovation project, and that completion of anticipated or ongoing property redevelopment or renovation projects that we do pursue may cost more, take more time to complete or fail to perform as expected;*
- *risk that we are investing a significant amount in ground-up development projects that may be dependent on third parties to deliver critical aspects of certain projects, requires spending a substantial amount upfront in infrastructure, and assumes receipt of public funding which has been committed but not entirely funded;*
- *risks normally associated with the real estate industry, including risks that occupancy levels at our properties and the amount of rent that we receive from our properties may be lower than expected, that new acquisitions may fail to perform as expected, that competition for acquisitions could result in increased prices for acquisitions, that costs associated with the periodic maintenance and repair or renovation of space, insurance and other operations may increase, that environmental issues may develop at our properties and result in unanticipated costs, and, because real estate is illiquid, that we may not be able to sell properties when appropriate;*
- *risks that our growth will be limited if we cannot obtain additional capital;*
- *risks associated with general economic conditions, including local economic conditions in our geographic markets;*
- *risks of financing, such as our ability to consummate additional financings or obtain replacement financing on terms which are acceptable to us, our ability to meet existing financial covenants and the limitations imposed on our operations by those covenants, and the possibility of increases in interest rates that would result in increased interest expense; and*
- *risks related to our status as a real estate investment trust, commonly referred to as a REIT, for federal income tax purposes, such as the existence of complex tax regulations relating to our status as a REIT, the effect of future changes in REIT requirements as a result of new legislation, and the adverse consequences of the failure to qualify as a REIT.*

Given these uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements that we make, including those in this Supplemental Information. Except as required by law, we make no promise to update any of the forward-looking statements as a result of new information, future events, or otherwise. You should review the risks contained in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 13, 2017.

- Generated earnings per diluted share of \$1.47 for the quarter compared to \$0.82 in third quarter 2016.
- Generated FFO per diluted share of \$1.50 for the quarter compared to \$1.41 in third quarter 2016.

- Opportunistically issued \$150.0 million of 5.0% Series C Cumulative Redeemable Preferred Shares.
- Narrowed 2017 FFO per diluted share guidance range to \$5.89 to \$5.92.

"Solid performance all around this quarter," said Donald C. Wood, President and Chief Executive Officer of Federal Realty. "Thoughtful positioning of our portfolio and company over the last decade empowers us to continue to excel during this transitional time in the retail real estate space. The balance of owning the best real estate in flexible formats combined with our A rated balance sheet sets us apart and allows us to focus on the future."

Financial Results

Net income available for common shareholders was \$106.6 million and earnings per diluted share was \$1.47 for third quarter 2017 versus \$58.8 million and \$0.82, respectively, for third quarter 2016. Year-to-date Federal Realty reported net income available for common shareholders of \$238.8 million and earnings per diluted share of \$3.30. This compares to net income available for common shareholders of \$191.5 million and earnings per diluted share of \$2.70 for the nine months ended September 30, 2016.

In the third quarter 2017, Federal Realty generated funds from operations available for common shareholders (FFO) of \$110.0 million, or \$1.50 per diluted share. This compares to FFO of \$101.7 million, or \$1.41 per diluted share, in third quarter 2016. For the nine months ended September 30, 2017, FFO was \$324.5 million, or \$4.45 per diluted share, compared to \$301.4 million, or \$4.21 per diluted share for the same nine month period in 2016.

FFO is a non-GAAP supplemental earnings measure which the Trust considers meaningful in measuring its operating performance. A reconciliation of FFO to net income is attached to this press release.

Portfolio Results

In third quarter 2017, same-center property operating income increased 4.4% over the prior year when including properties that are being redeveloped and 2.6% when excluding those properties.

The overall portfolio was 94.9% leased as of September 30, 2017, compared to 94.3% on September 30, 2016. Federal Realty's same center portfolio was 96.0% leased on September 30, 2017, compared to 95.7% on September 30, 2016.

During third quarter 2017, Federal Realty signed 90 leases for 424,492 square feet of retail space. On a comparable space basis (i.e., spaces for which there was a former tenant), Federal Realty leased 399,619 square feet at an average cash basis contractual rent increase per square foot (i.e., excluding the impact of straight-line rents) of 14%. The average contractual rent on this comparable space for the first year of the new leases is \$38.24 per square foot compared to the average contractual rent of \$33.43 per square foot for the last year of the prior leases. The previous average contractual rent was calculated by including both the minimum rent and any percentage rent actually paid during the last year of the lease term for the re-leased space. On a GAAP basis (i.e., including the impact of straight-line rents), rent increases per square foot for comparable retail space averaged 27% for third quarter 2017.

Federal Realty's Board of Trustees declared a regular quarterly cash dividend of \$1.00 per share, resulting in an indicated annual rate of \$4.00 per share. The regular common dividend will be payable on January 16, 2018 to common shareholders of record as of January 2, 2018.

Comparable Property Information
September 30, 2017

The following information is being provided for “Comparable Properties.” Comparable Properties represents our consolidated property portfolio other than those properties that distort comparability between periods in two primary categories: (1) assets that were not owned for the full quarter in both periods presented and (2) assets currently under development or being repositioned for significant redevelopment and investment. The assets excluded from Comparable Properties in Q3 include: 500 Santana Row, Assembly Row - Phase 2, CocoWalk, Pike & Rose, The Point at Plaza El Segundo, The Shops at Sunset Place, Towson Residential, and all properties acquired or disposed of from Q3 2016 to Q3 2017. Comparable Property property operating income (“Comparable Property POI”) is a non-GAAP measure used by management in evaluating the operating performance of our properties period over period.

Notes:

- 1) We entered into two interest rate swap agreements to fix the variable rate portion of our \$275.0 million term loan at 1.72% through November 1, 2018. The swap agreements effectively fix the rate on the term loan at 2.62% and thus, the loan is included in fixed rate debt.
- 2) The maximum amount drawn under our revolving credit facility during the three and nine months ended September 30, 2017, was \$281.5 million and \$344.0 million, respectively. The weighted average interest rate on borrowings under our revolving credit facility, before amortization of debt fees, for the three and nine months ended September 30, 2017, was 2.1% and 1.9%, respectively.
- 3) The weighted average effective interest rate includes the amortization of any debt issuance costs and discounts and premiums, if applicable, except as described in Note 4.
- 4) The weighted average effective interest rate excludes \$0.5 million in quarterly financing fees and quarterly debt fee amortization on our revolving credit facility which had \$41.5 million outstanding on September 30, 2017. In addition, the weighted average effective interest rate is calculated using the fixed rate on our term loan of 2.62% as the result of the interest rate swap agreements discussed in Note 1. The term loan is included in fixed rate debt.
- 5) Fixed charges consist of interest on borrowed funds (including capitalized interest), amortization of debt discount/premium and debt costs, and the portion of rent expense representing an interest factor. EBITDA includes a gain on sale of real estate and change in control of interests of \$51.1 million and \$4.9 million for the three months ended September 30, 2017 and 2016, respectively, and \$71.9 million and \$32.5 million for the nine months ended September 30, 2017 and 2016, respectively. Adjusted EBITDA is reconciled to net income in the Glossary of Terms.

Notes:

- (1) There is no guarantee that the Trust will ultimately complete any or all of these opportunities, that the Projected Return on Investment (ROI) or Projected Costs will be the amounts shown or that stabilization will occur as anticipated. The projected ROI and Projected Cost are management's best estimate based on current information and may change over time.
- (2) Projected ROI for redevelopment projects generally reflects only the deal specific cash, unleveraged incremental Property Operating Income (POI) generated by the redevelopment and is calculated as Incremental POI divided by incremental cost. Incremental POI is the POI generated by the redevelopment after deducting rent being paid or management's estimate of rent to be paid for the redevelopment space and any other space taken out of service to accommodate the redevelopment. Projected ROI for redevelopment projects does NOT include peripheral impacts, such as the impact on future lease rollovers at the property or the impact on the long-term value of the property.
- (3) Stabilization is generally the year in which 95% physical occupancy of the redeveloped space is achieved. Economic stabilization may occur at a later point in time.
- (4) All subtotals and totals reflect cost weighted-average ROIs.

Notes:

- (1) Anticipated opening dates, total cost, projected return on investment (ROI), and projected POI percentages are subject to adjustment as a result of factors inherent in the development process, some of which may not be under the direct control of the Company. Refer to the Company's filings with the Securities and Exchange Commission on Form 10-K and Form 10-Q for other risk factors.
- (2) Percentage figures reflect (i) the projected POI (herein defined) for the stated year divided by (ii) the current projected annual stabilized POI for the Property. These percentages are projections only and we cannot give any assurances that these amounts will actually be achieved.
- (3) Projected ROI for development projects reflects the unleveraged Property Operating Income (POI) generated by the development and is calculated as POI divided by cost.
- (4) Projected costs for Assembly Row and Pike & Rose include an allocation of infrastructure costs for the entire project.
- (5) Costs are net of expected reimbursement by third parties and land sale proceeds from expected exercise of option. Phase II total costs include our share of the costs in the hotel.
- (6) Condominiums shown at cost; the projected ROI for Phase II does not assume any incremental profit on the sale of condominium units; for return calculation purposes, condominiums are assumed to be sold at cost.
- (7) Excludes approximately \$9 million of costs incurred to date of which we have claims for recovery against 3rd parties.

Future Redevelopment Opportunities
September 30, 2017

We have identified the following potential opportunities to create future shareholder value. Executing these opportunities could be subject to government approvals, tenant consents, market conditions, etc. Work on many of these new opportunities is in its preliminary stages and may not ultimately come to fruition. This list will change from time to time as we identify hurdles that cannot be overcome in the near term, and focus on those opportunities that are most likely to lead to the creation of shareholder value over time.

Pad Site Opportunities - Opportunities to add both single tenant and multi-tenant stand alone pad buildings at existing retail properties. Many of these opportunities are "by right" and construction is awaiting appropriate retailer demand.

Notes:

- (1) Leases on this report represent retail activity only; office and residential leases are not included.
- (2) Comparable leases represent those leases signed on spaces for which there was a former tenant.
- (3) Contractual rent represents contractual minimum rent under the new lease for the first 12 months of the term.
- (4) Prior rent represents minimum rent and percentage rent, if any, paid by the prior tenant in the final 12 months of the term.
- (5) Weighted average is determined on the basis of contractual rent for the first 12 months of the term.
- (6) See Glossary of Terms.
- (7) Approximately \$3.5 million (\$2.28 per square foot) in 1st Quarter 2017 and \$0.3 million (\$0.74 per square foot) in 4th Quarter 2016 of the Tenant Improvements & Incentives are for properties under active redevelopment (e.g. Montrose Crossing and Willow Lawn) and are included in the Projected Cost for those projects on the Summary of Redevelopment Opportunities.
- (8) Approximately \$7.5 million of the Tenant Improvements & Incentives is attributable to one 20 year anchor tenant renewal; total Tenant Improvements & Incentives without this lease would be \$1.58 per square foot.
- (9) Renewal leases represent expiring leases rolling over with the same tenant in the same location. All other leases are categorized as new.
- (10) The Number of Leases Signed, GLA Signed, Contractual Rent Per Sq Ft and Weighted Average Lease Term columns include information for leases signed at our Assembly Row and Pike & Rose projects. The Tenant Improvements & Incentives and Tenant Improvements & Incentives Per Sq Ft columns do not include the tenant improvements and incentives on leases signed for those projects; these amounts for leases signed for Assembly Row and Pike & Rose are included in the Projected Cost column for those projects shown on the Assembly Row and Pike & Rose schedule.

Glossary of Terms

Adjusted EBITDA: Adjusted EBITDA is a non-GAAP measure that means net income or loss plus depreciation and amortization, net interest expense, income taxes, gain or loss on sale of real estate, and impairments of real estate, if any. Adjusted EBITDA is presented because it approximates a key performance measure in our debt covenants, but it should not be considered an alternative measure of operating results or cash flow from operations as determined in accordance with GAAP. The reconciliation of net income to EBITDA and Adjusted EBITDA for the three and nine months ended September 30, 2017 and 2016 is as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
	(in thousands)			
Net income	\$ 108,882	\$ 61,198	245,085	199,159
Depreciation and amortization	55,611	48,903	159,656	145,137
Interest expense	26,287	24,313	73,952	71,143
Provision for income tax (1)	300	—	1,998	—
Other interest income	(79)	(105)	(253)	(285)
EBITDA	191,001	134,309	480,438	415,154
Gain on sale of real estate and change in control of interests	(51,075)	(4,945)	(71,947)	(32,458)
Adjusted EBITDA	\$ 139,926	\$ 129,364	\$ 408,491	\$ 382,696

(1) Provision for income tax related to condominium sales gains.

Funds From Operations (FFO): FFO is a supplemental measure of real estate companies' operating performances. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as follows: net income, computed in accordance with GAAP plus real estate related depreciation and amortization and excluding extraordinary items and gains and losses on sale of real estate, and impairment write-downs of depreciable real estate. NAREIT developed FFO as a relative measure of performance and liquidity of an equity REIT in order to recognize that the value of income-producing real estate historically has not depreciated on the basis determined under GAAP. However, FFO does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income); should not be considered an alternative to net income as an indication of our performance; and is not necessarily indicative of cash flow as a measure of liquidity or ability to pay dividends. We consider FFO a meaningful, additional measure of operating performance primarily because it excludes the assumption that the value of real estate assets diminishes predictably over time, and because industry analysts have accepted it as a performance measure. Comparison of our presentation of FFO to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

Property Operating Income: Rental income, other property income and mortgage interest income, less rental expenses and real estate taxes.

Overall Portfolio: Includes all operating properties owned in reporting period.

Same Center: Information provided on a same center basis is provided for only those properties that were owned, operated, and consolidated for the entirety of both periods being compared, excludes properties that were redeveloped, expanded or under development and properties purchased or sold at any time during the periods being compared. Same center growth statistics are calculated on a GAAP basis.

Tenant Improvements and Incentives: Represents not only the total dollars committed for the improvement (fit-out) of a space as it relates to a specific lease and, except for redevelopments, may also include base building costs (i.e. expansion, escalators or new entrances) which are required to make the space leasable. Incentives include amounts paid to tenants as an inducement to sign a lease that do not represent building improvements.
