Certain matters discussed within this Supplemental Information may be deemed to be forward-looking statements within the meaning of the federal securities laws. Although Federal Realty believes the expectations reflected in the forward-looking statements are based on reasonable assumptions, it can give no assurance that its expectations will be attained. These factors include, but are not limited to, the risk factors described in our Annual Report on Form 10-K filed on February 8, 2023, and include the following:

- *risks that our tenants will not pay rent, may vacate early or may file for bankruptcy or that we may be unable to renew leases or re-let space at favorable rents as leases expire or to fill existing vacancy;*
- *risks that we may not be able to proceed with or obtain necessary approvals for any development, redevelopment, or renovation project, and that completion of anticipated or ongoing property development, redevelopment, or renovation projects that we do pursue may cost more, take more time to complete or fail to perform as expected;*
- *risks normally associated with the real estate industry, including risks that occupancy levels at our properties and the amount of rent that we receive from our properties may be lower than expected, that new acquisitions may fail to perform as expected, that competition for acquisitions could result in increased prices for acquisitions, that costs associated with the periodic maintenance and repair or renovation of space, insurance and other operations may increase, that environmental issues may develop at our properties and result in unanticipated costs, and, because real estate is illiquid, that we may not be able to sell properties when appropriate;*
- *risks that our growth will be limited if we cannot obtain additional capital, or if the costs of capital we obtain are significantly higher than historical levels;*
- *risks associated with general economic conditions, including inflation and local economic conditions in our geographic markets;*
- *risks of financing on terms which are acceptable to us, our ability to meet existing financial covenants and the limitations imposed on our operations by those covenants, and the possibility of increases in interest rates that would result in increased interest expense;*
- *risks related to our status as a real estate investment trust, commonly referred to as a REIT, for federal income tax purposes, such as the existence of complex tax regulations relating to our status as a REIT, the effect of future changes in REIT requirements as a result of new legislation, and the adverse consequences of the failure to qualify as a REIT; and*
- *risks related to natural disasters, climate change and public health crises (such as the outbreak and worldwide spread of COVID-19), and the measures that international, federal, state and local governments, agencies, law enforcement and/or health authorities implement to address them, may precipitate or materially exacerbate one or more of the above-mentioned risks, and may significantly disrupt or prevent us from operating our business in the ordinary course for an extended period.*

Given these uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements that we make, including those in this Supplemental Information. Except as required by law, we make no promise to update any of the forward-looking statements as a result of new information, future events, or otherwise. You should review the risks contained in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 8, 2023 and subsequent quarterly reports on Form 10-Q.

- (1) See Glossary of Terms.
- (2) For the three and nine months ended September 30, 2023 and 2022, dividends on our Series 1 preferred stock were not deducted in the calculation of FFO available to common shareholders, as the related shares were dilutive and are included in "weighted average number of common shares, diluted."
- (3) The weighted average common shares used to compute FFO per diluted common share includes downREIT operating partnership units that were excluded from the computation of diluted EPS. Conversion of these operating partnership units is dilutive in the computation of FFO per diluted share for all periods presented, but is anti-dilutive for the computation of dilutive EPS for the three and nine months ended September 30, 2023.

Comparable Property Information
September 30, 2023

The following information is being provided for "Comparable Properties." Comparable Properties represents our consolidated property portfolio other than those properties that distort comparability between periods in two primary categories: (1) assets that were not owned for the full quarter in both periods presented and (2) assets currently under development or being repositioned for significant redevelopment and investment. The assets excluded from Comparable Properties in Q3 include: Assembly Row Phase 3, CocoWalk, Darien Commons, Friendship Center, Huntington Shopping Center, Pike & Rose Phases 3 and 4, Willow Grove Shopping Center, and all properties acquired, disposed of, or not consolidated from Q3 2022 to Q3 2023. Comparable Property property operating income ("Comparable Property POI") is a non-GAAP measure used by management in evaluating the operating performance of our properties period over period.

- (2) We have two interest rate swap agreements that fix the interest rate on the mortgage loan at 3.67%. The reference rate for the mortgage loan and related swaps was amended from LIBOR to SOFR in May 2023. This amendment was effective for interest payments subsequent to July 1, 2023.
- (3) The interest rates on these mortgages range from 3.91% to 5.00%.
- (4) Our revolving credit facility SOFR loans bear interest at Daily Simple SOFR or Term SOFR and our term loan bears interest at Term SOFR as defined in the respective credit agreements, plus 0.10%, plus a spread, based on our current credit rating.
- (5) The maximum amount drawn under our \$1.25 billion revolving credit facility during the three and nine months ended September 30, 2023 was \$63.5 million and \$80.5 million, respectively. The weighted average interest rate on borrowings under our credit facility, before amortization of debt fees, for the three and nine months ended September 30, 2023 was 6.1% and 5.7%, respectively.
- (6) The weighted average effective interest rate includes the amortization of any debt issuance costs and discounts and premiums, if applicable, except as described in Note 7.

Notes:

- (1) There is no guarantee that the Trust will ultimately complete any or all of these opportunities, that the ROI or Projected Costs will be the amounts shown or that stabilization will occur as anticipated. The projected returns on investment (ROI) and Projected Cost are management's best estimate based on current information and may change over time. Anticipated total cost, and projected ROI, and projected POI delivered are subject to adjustment as a result of factors inherent in the development process, some of which may not be under the direct control of the Company. Refer to the Company's filings with the Securities and Exchange Commission on Form 10-K and Form 10-Q for other risk factors.
- (2) Projected ROI for mixed-use redevelopment/expansion projects reflects the unleveraged Property Operating Income (POI) generated by the project and is calculated as POI divided by cost. Projected POI delivered includes straight line rent.
- (3) Projected costs for Pike & Rose include an allocation of infrastructure costs for the entire project. Santana West includes an allocation of infrastructure for the Santana West site.
- (4) Projected ROI for redevelopment projects generally reflects only the deal specific cash, unleveraged incremental POI generated by the redevelopment and is calculated as Incremental POI divided by incremental cost. Incremental POI is the POI generated by the redevelopment after deducting rent being paid or management's estimate of rent to be paid for the redevelopment space and any other space taken out of service to accommodate the redevelopment. Projected ROI for redevelopment projects generally does not include peripheral impacts, such as the impact on future lease rollovers at the property or the impact on the long-term value of the property but may for certain property improvement projects.
- (5) Stabilization is generally the year in which 90% physical occupancy of the redeveloped space is achieved. Economic stabilization may occur at a later point in time.
- (6) Property improvement projects generally consist of façade renovations, site improvements, landscaping, improved outdoor amenity spaces, and other upgrades to improve the overall look and environment of the property. These projects improve overall tenant and customer experiences, improve market rents, drive leasing demand, and/or provide outdoor spaces critical to meeting the needs of the current environment. Returns on these projects are typically seen over one to five years, however, some projects could extend beyond that. Projected ROI range reflects management's best estimate of the long term expected return on cost of these investments.

Future Redevelopment and Expansion Opportunities
September 30, 2023

We have identified the following potential opportunities to create future shareholder value. Executing these opportunities could be subject to government approvals, tenant consents, market conditions, etc. Work on many of these opportunities is in its preliminary stages and may not ultimately come to fruition. This list will change from time to time as we identify hurdles that cannot be overcome in the near term, and focus on those opportunities that are most likely to lead to the creation of shareholder value over time.

- (8) The Number of Leases Signed, GLA Signed, Contractual Rent Per Sq. Ft. and Weighted Average Lease Term columns include information for leases signed at Phase 3 of both of our Assembly Row and Pike & Rose projects and Phase 4 of Pike & Rose. The Tenant Improvements & Incentives and Tenant Improvements & Incentives Per Sq. Ft. columns do not include the tenant improvements and incentives on leases signed for those projects; these amounts for leases signed are included in the projected costs for the respective projects.
- (9) Option exercises reflect a fixed rate contractual option under the lease agreement that was exercised during the period reflected.

Glossary of Terms

EBITDA for Real Estate ("EBITDAre"): EBITDAre is a non-GAAP measure that the National Association of Real Estate Investment Trusts ("NAREIT") defines as: net income computed in accordance with GAAP plus net interest expense, income tax expense, depreciation and amortization, gain or loss on sale of real estate, impairments of real estate and change in control of interest, and adjustments to reflect the entity's share of EBITDAre of unconsolidated affiliates. We calculate EBITDAre consistent with the NAREIT definition. As EBITDA is a widely known and understood measure of performance, management believes EBITDAre represents an additional non-GAAP performance measure, independent of a company's capital structure, that will provide investors with a uniform basis to measure the enterprise value of a company. EBITDAre also approximates a key performance measure in our debt covenants, but it should not be considered an alternative measure of operating results or cash flow from operations as determined in accordance with GAAP. The reconciliation of net income to EBITDAre for the three and nine months ended September 30, 2023 and 2022 is as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2023	2022	2023	2022
	(in thousands)			
Net income	\$ 59,392	\$ 158,774	\$ 180,127	\$ 277,969
Interest expense	42,726	35,060	124,835	98,707
Other interest income	(721)	(234)	(3,775)	(487)
Income tax provision	322	466	662	635
Depreciation and amortization	81,731	77,109	239,342	223,244
Gain on deconsolidation of VIE	—	(70,374)	—	(70,374)
Gain on sale of real estate	—	(29,723)	(1,702)	(29,723)
Adjustments of EBITDAre of unconsolidated affiliates	2,070	1,302	8,324	3,098
EBITDAre	<u>\$ 185,520</u>	<u>\$ 172,380</u>	<u>\$ 547,813</u>	<u>\$ 503,069</u>

Funds From Operations (FFO): FFO is a supplemental measure of real estate companies' operating performances. NAREIT defines FFO as follows: net income, computed in accordance with GAAP plus real estate related depreciation and amortization, gains and losses on sale of real estate, and impairment write-downs of depreciable real estate. NAREIT developed FFO as a relative measure of performance and liquidity of an equity REIT in order to recognize that the value of income-producing real estate historically has not depreciated on the basis determined under GAAP. However, FFO does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income); should not be considered an alternative to net income as an indication of our performance; and is not necessarily indicative of cash flow as a measure of liquidity or ability to pay dividends. We consider FFO a meaningful, additional measure of operating performance primarily because it excludes the assumption that the value of real estate assets diminishes predictably over time, and because industry analysts have accepted it as a performance measure. Comparison of our presentation of FFO to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

Property Operating Income: Rental income and mortgage interest income, less rental expenses and real estate taxes.

Overall Portfolio: Includes all operating properties owned in reporting period.

Comparable Properties: Represents our consolidated property portfolio other than those properties that distort comparability between periods in two primary categories: (1) assets that were not owned for the full quarter in both periods presented and (2) assets currently under development or being repositioned for significant redevelopment and investment. Comparable property growth statistics are calculated on a GAAP basis.

Annualized Base Rent (ABR): Represents aggregate, annualized in-place contractual (defined as rents billed on a cash basis without taking the impact of rent abatements into account) minimum rent for all occupied spaces as of the reporting period.

Retail Leasing Summary - Lease Rollover Calculation: The rental increases associated with comparable spaces generally include all leases signed for retail space in arms-length transactions reflecting market leverage between landlords and tenants during the period, excluding leases at properties sold during the quarter or under contract to be sold. The comparison between the rent for expiring leases and new leases is determined by including contractual rent on the expiring lease, including percentage rent, and the comparable annual rent and in some instances, projections of percentage rent, to be paid on the new lease. In atypical circumstances, management may exercise judgement as to how to most effectively reflect the comparability of rents reported in the calculation. The change in rental income on comparable space leases is impacted by numerous factors including current market rates, location, individual tenant creditworthiness, use of space, market conditions when the expiring lease was signed, capital investment made in the space and the specific lease structure.

Tenant Improvements and Incentives: Represents the total dollars committed for the improvement (fit-out) of a space as it relates to a specific lease. Incentives include amounts paid to tenants as an inducement to sign a lease that do not represent building improvements.

General: Property related statistics are the for the consolidated property portfolio except where noted.
