Certain matters discussed within this Supplemental Information may be deemed to be forward-looking statements within the meaning of the federal securities laws. Although Federal Realty believes the expectations reflected in the forward-looking statements are based on reasonable assumptions, it can give no assurance that its expectations will be attained. These factors include, but are not limited to, the risk factors described in our Annual Report on Form 10-K filed on March 3, 2006 (as amended), and include the following:

- risks that our tenants will not pay rent or that we may be unable to renew leases or re-let space at favorable rents as leases expire;
- risks that we may not be able to proceed with or obtain necessary approvals for any redevelopment or renovation project, and that completion of anticipated
  or ongoing property redevelopments or renovations may cost more, take more time to complete, or fail to perform as expected;
- risks that the number of properties we acquire for our own account, and therefore the amount of capital we invest in acquisitions, may be impacted by our real estate partnership;
- risks normally associated with the real estate industry, including risks that occupancy levels at our properties and the amount of rent that we receive from
  our properties may be lower than expected, that new acquisitions may fail to perform as expected, that competition for acquisitions could result in increased
  prices for acquisitions, that environmental issues may develop at our properties and result in unanticipated costs, and, because real estate is illiquid, that we
  may not be able to sell properties when appropriate;
- risks that our growth will be limited if we cannot obtain additional capital;
- risks of financing, such as our ability to consummate additional financings or obtain replacement financing on terms which are acceptable to us, our ability
  to meet existing financial covenants and the limitations imposed on our operations by those covenants, and the possibility of increases in interest rates that
  would result in increased interest expense; and
- risks related to our status as a real estate investment trust, commonly referred to as a REIT, for federal income tax purposes, such as the existence of complex tax regulations relating to our status as a REIT, the effect of future changes in REIT requirements as a result of new legislation, and the adverse consequences of the failure to qualify as a REIT.

Given these uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements that we make, including those in this Supplemental Information. Except as required by law, we make no promise to update any of the forward-looking statements as a result of new information, future events, or otherwise. You should review the risks contained in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on March 3, 2006 (as amended).

#### **Financial Results**

In fourth quarter 2006, Federal Realty generated FFO of \$48.0 million, or \$0.86 per diluted share, which excludes the impact of a \$4.8 million, or \$0.09 per diluted share, non-cash charge relating to the redemption of our Series B Preferred Shares in November 2006. This compares to FFO of \$42.0 million, or \$0.78 per diluted share, generated and reported in fourth quarter 2005. FFO reported by Federal Realty for fourth quarter 2006 was \$43.3 million, or \$0.77 per diluted share including the preferred share redemption charge.

For the year ended December 31, 2006, Federal Realty generated FFO of \$181.9 million, or \$3.35 per diluted share, which excludes the impact of the \$4.8 million, or \$0.09 per diluted share, non-cash preferred share redemption charge described above. This compares to FFO of \$163.5 million, or \$3.06 per diluted share, generated and reported in 2005. FFO reported by Federal Realty for the year ended December 31, 2006 was \$177.1 million, or \$3.26 per diluted share including the preferred share redemption charge.

Net income available for common shareholders was \$17.8 million and earnings per diluted share was \$0.32 for the quarter ended December 31, 2006 versus \$32.3 million and \$0.61, respectively, for fourth quarter 2005. For the full year 2006, Federal Realty reported net income available for common shareholders of \$103.5 million, or \$1.92 per diluted share. This compares to net income available for common shareholders of \$103.1 million, or \$1.94 per diluted share, for the year ended December 31, 2005. Federal Realty's net income available for common shareholders and earnings per diluted share results include the aforementioned \$4.8 million Series B Preferred redemption charge in fourth quarter and year-end 2006 results, and a significant decline in gain on sale of real estate, reflecting the completion of the Santana Row condominium sales in August 2006.

FFO is a non-GAAP supplemental earnings measure which the Trust considers meaningful in measuring its operating performance. A reconciliation of FFO and FFO per diluted share to net income is attached to this press release.

FEDERAL REALTY INVESTMENT TRUST ANNOUNCES FOURTH QUARTER AND YEAR-END 2006 OPERATING RESULTS February 13, 2007 Page 3

During fourth quarter 2006, the Trust signed 84 leases for 321,000 square feet of retail space. On a comparable space basis (*i.e.*, spaces for which there was a former tenant), the Trust leased 304,000 square feet at an average cash-basis contractual rent increase per square foot (*i.e.*, excluding the impact of straight-line rents) of 17%. The average contractual rent on this comparable space for the first year of the new lease is \$26.72 per square foot compared to the average contractual rent of \$22.80 per square foot for the last year of the prior lease. The previous average contractual rent is calculated by including both the minimum rent and the percentage rent actually paid during the last year of the lease term for the re-leased space. On a GAAP basis (*i.e.*, including the impact of straight-line rents), rent increases per square foot for comparable retail space averaged 30% for fourth quarter 2006.

In 2006, Federal Realty signed 257 leases representing 1.2 million square feet of comparable retail space at an average cash-basis contractual rent increase per square foot of 18%, and 29% on a GAAP-basis. The average cash-basis contractual rent on this comparable space for the first year of the new lease is \$23.45 per square foot compared to the average cash-basis contractual rent of \$19.84 per square foot for the last year of the prior lease. As of December 31, 2006, Federal Realty's average contractual minimum rent for retail and commercial space in its portfolio is \$18.97 per square foot.

"Our 2006 results continue to reflect the consistency and sustainability of our business strategy," commented Donald C. Wood, president and chief executive officer of Federal Realty Investment Trust. "Strong leasing results and redevelopment returns provide not only significant earnings growth, but considerable value creation for our shareholders."

Notes:

(a) Mortgage loans do not include the Trust's 30% share (\$23.2 million) of the \$77.4 million debt of the partnership with Clarion Lion Properties Fund.

(b) The Trust acquired control of Melville Mall through a 20 year master lease and secondary financing. Since the Trust controls this property and retains substantially all of the economic benefit and risks associated with it, this property is consolidated and the mortgage loan is reflected on the balance sheet though it is not a legal obligation of the Trust.

(c) The interest rate is fixed at 5.66% for the first ten years and then will be reset to a market rate in 2013. The lender has the option to call the loan on April 15, 2013 or anytime thereafter.

(d) The weighted average effective rate, before amortization of debt fees, was 5.74% and 5.55% for the three and twelve months ended December 31, 2006.

(e) The bonds bear interest at a variable rate determined weekly which would enable the bonds to be remarketed at 100% of their principal amount.

- (f) The Trust purchased an interest rate lock to hedge this note offering. A loss of \$1.5 million associated with this hedge is being amortized into the note offering thereby increasing the effective interest rate on these notes to 6.325%.
- (g) Beginning on August 15, 2008, the debentures are redeemable by the holders thereof at the original purchase price of \$1,000 per debenture.
- (h) Beginning on August 1, 2007, the notes are redeemable by the holders thereof at the original purchase price of \$1,000 per note.
- The average annualized interest rate on capital lease obligations as of December 31, 2006 is 9.07% on a basis of minimum rent and 12.82% including performancebased participation.
- (j) The weighted average effective interest rate includes the amortization of any deferred financing fees, discounts and premiums, if applicable, and excludes performance-based rent on capital lease obligations.
- (k) Fixed charges consist of interest on borrowed funds (including capitalized interest), amortization of debt discount or premium and expense and the portion of rent expense representing an interest factor. Preferred share dividends consist of dividends paid on outstanding Series B preferred shares and preferred share redemption costs. Adjusted EBITDA is reconciled to net income in the Glossary of Terms.
- (I) Fixed charges consist of interest on borrowed funds (including capitalized interest), amortization of debt discount or premium and expense and the portion of rent expense representing an interest factor. Preferred share dividends consist of dividends paid on outstanding Series B preferred shares excluding preferred share redemption costs. Adjusted EBITDA is reconciled to net income in the Glossary of Terms.

Notes:

- (1) These current redevelopment opportunities are being pursued by the Trust. There is no guaranty that the Trust will ultimately complete any or all of these opportunities, that the Projected Return on Investment (ROI) or Projected Costs will be the amounts shown or that stabilization will occur as anticipated. The projected ROI and Projected Cost are management's best estimate based on current information and may change over time.
- (2) Projected ROI reflects only the deal specific cash, unleveraged Incremental Property Operating Income (POI) generated by the redevelopment and is calculated as Incremental POI divided by cost. Incremental POI is the POI generated by the redevelopment after deducting rent being paid for the redevelopment space and any other space taken out of service to accommodate the redevelopment. Projected ROI does NOT include peripheral impacts, such as the impact on future lease rollovers at the property or the impact on the long-term value of the property. ROI for Mount Vernon/South Valley and Mercer Mall (properties acquired on the basis of redevelopment potential) are calculated as the increase in POI between acquisition and stabilization divided by the increase in cost basis between acquisition and stabilization.
- (3) Stabilization is the year in which 95% occupancy of the redeveloped space is achieved.
- (4) All subtotals and totals reflect cost weighted-average ROIs.
- (5) These future redevelopment opportunities are being explored by the Trust. There is no guaranty that the Trust will ultimately pursue or complete any or all of these opportunities.
- (6) Individual items may not add up to total due to rounding.

#### Notes:

(1) Excludes newly created redevelopment square footage not yet in service, as well as residential and hotel square footage.

(2) For purposes of this schedule, "occupied" refers to spaces where the lease term and obligation to pay rent have commenced.

(3) Calculated as the aggregate, annualized in-place contractual (cash basis) minimum rent for all occupied spaces divided by the aggregate GLA of all occupied spaces.

(4) Grocery anchor is defined as a grocery tenant leasing 15,000 square feet or more.

(5) Portion of property subject to capital lease obligation.

(6) Total investment includes dollars associated with the 146 units of The Crest at Congressional. The Trust has a 64.1% ownership interest in the property.

(7) Property owned in a "downreit" partnership, of which a wholly owned subsidiary of the Trust is the sole general partner, with third party partners holding operating partnership units.

(8) Property subject to capital lease obligation.

(9) The Trust acquired three retail condominium units with approximately 143,000 square feet of gross floor area, and we intend to acquire additional retail condominium units totaling approximately 32,000 square feet of gross floor area. No square footage has been placed in service.

(10) On October 16, 2006, the Trust acquired control of Melville Mall through a 20 year master lease and secondary financing. Since the Trust controls this property and retains substantially all of the economic benefit and risks associated with it, we consolidate this property and its operations.

(11) At 12/31/2006 all or a portion of the property was parked with a Section 1031 exchange agent for a potential "reverse" exchange. These exchanges were terminated in January 2007.

(12) The Trust has a 70% ownership interest in the property.

(13) Consists of four properties, three owned 100% by the Trust and one in which the Trust has a 90% ownership interest.

(14) The Trust has a 90% ownership interest in the property.

(15) Consists of nine properties, eight owned 100% by the Trust and one in which the Trust has a 90% ownership interest.

#### **Glossary of Terms**

Adjusted EBITDA: Adjusted EBITDA is a non-GAAP measure that means net income or loss plus depreciation and amortization, net interest expense, income taxes, gain or loss on sale of real estate and impairments of real estate, if any. Adjusted EBITDA is presented because we believe that it provides useful information to investors regarding our ability to service debt and because it approximates a key covenant in material notes. Adjusted EBITDA should not be considered an alternative measure of operating results or cash flow from operations as determined in accordance with GAAP. The reconciliation of Adjusted EBITDA, to net income for the twelve months ended December 31, 2006 and 2005 is as follows:

		For the Twelve Months Ended December 31,		
	(in tho	usands)		
	2006	2005		
Net income	\$ 118,712	\$ 114,612		
Depreciation and amortization	97,879	91,503		
Interest expense	102,808	88,566		
Other interest income	(2,616)	(2,216)		
EBITDA	316,783	292,465		
(Gain) on sale of real estate	(23,956)	(30,748)		
Adjusted EBITDA	\$ 292,827	\$ 261,717		

**Funds From Operations (FFO):** FFO is a supplemental measure of real estate companies' operating performances. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as follows: income available for common shareholders before depreciation and amortization of real estate assets and excluding extraordinary items and gains and losses on sale of real estate. NAREIT developed FFO as a relative measure of performance and liquidity of an equity REIT in order to recognize that the value of income-producing real estate historically has not depreciated on the basis determined under GAAP. However, FFO does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income); should not be considered an alternative to net income as an indication of our performance; and is not necessarily indicative of cash flow as a measure of liquidity or ability to pay dividends. We consider FFO a meaningful, additional measure of operating performance because it primarily excludes the assumption that the value of real estate assets diminishes predictably over time, and because industry analysts have accepted it as a performance measure. Comparison of our presentation of FFO to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

Property Operating Income: Rental income, other property income and mortgage interest income, less rental expenses and real estate taxes and excluding operating results from discontinued operations.

Overall Portfolio: Includes all operating properties owned in reporting period.

Same Center: Information provided on a same center basis is provided for only those properties that were owned and operated for the entirety of both periods being compared, excludes properties that were redeveloped, expanded or under development and properties purchased or sold at any time during the periods being compared.

**Tenant Improvements and Incentives**: Represents not only the total dollars committed for the improvement (fit-out) of a space as it relates to a specific lease but may also include base building costs (i.e. expansion, escalators or new entrances) which are required to make the space leasable. Incentives include amounts paid to tenants as an inducement to sign a lease that do not represent building improvements.
